

## PACKAGING

### *Packmatic*

Fully automatic cartoning line for letterbox packaging

Medication roll

Enlarged roll

### *Rollmatic L20*

This machine rapidly enlarges a small, i.e. more tightly rolled up, medication roll into a larger roll that can be flattened in order to be packaged in a letterbox package.

Placed as a flat wrapper in a letterbox package

Closed and sealed letterbox package with the name and address details of the recipient
